

Adding Hardware Devices to an Existing Network for your Home or Business

A WMITPRO computer technician will make a service call anywhere in Western Michigan (Grand Rapids, MI. Holland, Grand Haven, Lansing, and Kalamazoo) and setup a single device to an existing wired or wireless network for your home or business.

Examples include:

- Computer
- Access point
- Print server

How can we help you setup your home or office network? Secure Wireless Networks work great for a home office. Let us make your wireless connection secure or your internet connection "Child Friendly".

Serving West Michigan and the Surround areas of: Grand Rapids, MI., Lansing, Holland, Grand Haven, and Kalamazoo.
