

## Family Security

Although Vista comes with built-in parental control software, we'll make sure that it's set up and running for maximum online protection.

An Agent will:

- Set up user accounts
- Configure Internet security, game ratings, and time-of-use parameters
- Block any specific Internet sites that you don't want children to access
- Clean up your hard drive

- Set up user account
- Configure Internet security, game ratings, time-of-use parameters
- Block specific Internet sites that you don't want children to access
- Adjust system settings for faster and smoother performance
- Update your PC with the most recent security software
- Clean up your hard drive
- Configure up to 10 gadgets
-
